- ◆ Dogs are welcome on the walks but some areas (e.g., Bolton Abbey, Bowsworth) do not allow dogs. They should be kept under control at all times so that everyone enjoys the walk.
- ◆ Walks may have to be changed due to weather or other circumstances. In very bad weather walks may be cancelled. Leaders that are unable to take their own walk will secure a replacement leader.
- ◆ We encourage car sharing from the meeting point and have a sensible fixed contribution (based on distance) for the drivers' expenses. Ask at the meeting point if you're concerned about these costs.
- ◆ Any member wishing to break away from the walk should inform the walk leader before doing so.

All sporting and leisure activities have inherent hazards associated with them and rambling is no exception. In spite of the safety of members always being the paramount concern accidents will occasionally occur. It is important therefore that, when entering into the activity, each member appreciates that they have a responsibility to identify the hazards associated with the activity and take all reasonable precautions to eliminate or minimise the potential for an accident to arise.

Founded in 1907, We are the Nelson and District CHA. Whilst being affiliated to the Ramblers Association we are independent from them and a little bit different to them.

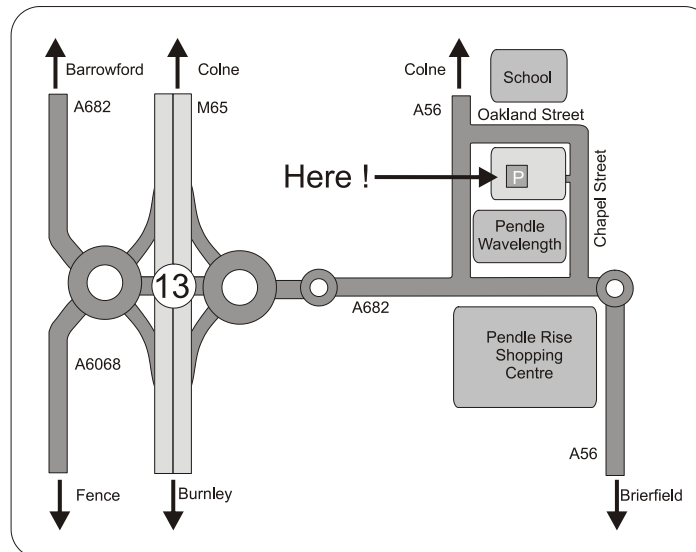

If after a walk or two you decide to become a regular then the annual subscription is £3.00 for adults or £0.50 for children (up to 16 years). This is due from the AGM.

There is no need to contact us before walking with the club (just turn up at the meeting point !) but if you need further information or help then just call one of the people listed below.

A black and white photograph showing three prominent rock formations on a flat, grassy landscape. The formation on the left is a single, large, rounded boulder. The middle formation consists of two stacked, rounded rocks. The formation on the right is a larger, more complex stack of several rounded rocks. The ground is covered in low-lying vegetation and small rocks. The sky is clear and light-colored.
